# Hosting of "russian" web resources

Localization of fragmentation?

# Local resources

- local language
  - and script
- local agenda
  - and prictices
  - and regulation

# Why important

- Are we depend on others?
- Are we depend on government?
- Are we depend on local monopolies?

# Fragmentation

whatever it means

# What is local?

Domain names

- .RU, .SU
- IDNs: .PΦ, .MOCKBA, .PYS, .OPΓ

zonefiles are available  
some other lists

# What is local?

Infrastructure: AS numbers/prefix

- registered for local organization
- announced by local AS

# RESULTS

68% is localized in RUSSIA, TOP 10

REG.RU

Hetzner Online AG

TimeWeb

SEDO GmbH

Serverel Corp

RTComm.RU

Beget Ltd

ISPsystem

RU-CENTER

.masterhost

# Additional sources

- ALEXA lists
- “Illegal content”
- Resources under state contract

# Conclusion

- is it interesting?
- is it reasonable?
- interface/data export?
- any other lists of localizable resources?
